

COMMERCIAL/INDUSTRIAL DISCRETIONARY TREE REMOVAL APPLICATION

Application fee due upon submittal: See Section 2.5

City of Cerritos approval is required prior to the removal of any privately-owned tree located on a commercial or industrial property. This Commercial/Industrial Discretionary Tree Removal Application is intended for the proposed removal of trees that constitute a private nuisance and that do not qualify for Administrative approval (see Section 2.0 for additional details). Please consult with the Department of Community Development for the appropriate application and approval process (see Section 5.0 of this application for additional details).

Level of review: This application is subject to discretionary review by the Cerritos Planning Commission. The application will first be reviewed administratively by City of Cerritos staff to ensure completeness and clarity of the information provided. Following City staff's determination of completeness, staff will schedule a public hearing before the Cerritos Planning Commission for their review and consideration of the application. In some instances, where the proposed tree replacement would cause a substantial visual impact to the property as viewed from the street, the application may be referred to the City Council for review and consideration following Planning Commission review and recommendation, on a case-by-case basis.

2.0 DISCRETIONARY TREE REMOVAL STANDARDS

In accordance with Section 8 of the City of Cerritos Tree Preservation Manual, the following standards shall apply for all discretionary tree removals:

- 2.1 Eligibility – Discretionary tree removal approval may be granted by the Cerritos Planning Commission when a tree constitutes a private nuisance. "Private nuisance" means a privately-owned tree causing significant structural damage to privately-owned structures including, but not limited to, buildings, block walls, shade structures, and trash enclosures. "Private nuisance" also means a tree on private property that poses a danger or threat to the life, health, or safety of the general public.

"Significant structural damage" means significant visible physical damage to any of the aforementioned structures caused by the subject tree's main trunk and/or root system, thereby jeopardizing the structural integrity of said structure. Evidence of significant structural damage must be reported in a Building Inspection Report prepared by an independent Certified Building Inspector, retained by the property owner. Damage to existing privately-owned sidewalks, curbing, asphalt paving, and/or plumbing caused by the root system of an adjacent tree shall not qualify as "significant structural damage" unless any of the following conditions apply:

- 1.) Damage to private property persists after initial root-pruning measures prove to be ineffective;
- 2.) The extent of the required root pruning is deemed by the City Arborist to be detrimental to the long-term health and stability of the subject tree; or
- 3.) The referenced damage to private property is unable to be corrected without first removing the subject tree.

All measures to preserve and protect trees that are not dead, dying, or diseased must be exhausted prior to obtaining Planning Commission approval for the removal of healthy trees that are believed to be causing significant structural damage to a permanent privately-owned structure. Accordingly, leaf debris, droppings, sap, and/or tree branches that can be effectively controlled through pruning and routine maintenance shall not constitute "significant property damage" and thereby shall not be considered as justification for the removal of trees.

Only trees that meet the eligibility criteria outlined in this section should be included in this application. Other trees that qualify for staff-level approval should be included in a separate Administrative Tree Removal Application for staff-level review and approval.

- 2.2 Prior Written Review/Approval – No tree shall be removed without prior written authorization from the respective property owner and subsequent approval by the City of Cerritos. With the submittal of a completed application and required supplemental information, City staff will conduct an inspection and, upon determining whether the trees meet the eligibility criteria outlined above, will authorize consideration of a Discretionary Tree Removal Application by the Planning Commission at a duly noticed public meeting.
- 2.3 Replacement of Prior Removed Trees – No new trees will be considered for approval for removal until all prior removed trees have been replaced in accordance with previous written City approval. Trees that were previously removed without City approval and without replacement shall be included in the proposed Tree Replacement Plan.

- 2.4 One-for-One Replacement – Each removed tree must be replaced with at least one new tree on the same property with similar characteristics, the species and size of which must be approved by the City of Cerritos.
- 2.5 Application Fees – The following application fees shall be required to be submitted with a completed Discretionary Tree Removal Application:
 - \$500 public hearing fee AND
 - \$0.39 per mailing label (see Section 4.4) AND
 - Tree removal request fee as follows:
 - \$115 for the proposed removal of 1-5 trees;
 - \$230 for the proposed removal of 6-10 trees; or
 - \$560 for the proposed removal of 11 or more trees.
- 2.6 Pre-Application Meeting – City staff is available upon request to meet with property owner(s) and respective Qualified Landscape Professionals (see Section 4.1) in advance of application submittal to answer questions pertaining to completion of the application and preparation of the required Tree Reforestation Plan. Call (562) 916-1201 to schedule an appointment.
- 2.7 Application Review "Shot Clock" – City staff shall be required to do either of the following within thirty (30) days of receipt of a completed application:
 - Complete the plan check review and provide comments and corrections to the applicant for incorporation into a revised plan. If corrections are required, the applicant shall resubmit a revised plan with said changes incorporated for further review by City staff under a new thirty (30) day "shot clock" period; or
 - Find the application to be complete and the plans and supporting documents to be ready for Cerritos Planning Commission review. Staff will schedule a public hearing before the Cerritos Planning Commission for their review and consideration of the application.
 - In some instances, where the proposed tree replacement would cause a substantial visual impact to the property as viewed from the street, the application may be referred to the City Council for review and consideration following Planning Commission review and recommendation, on a case-by-case basis.
- 2.8 Public Hearing Purpose – A duly noticed public hearing is required for consideration of a Discretionary Tree Removal Application in order to provide an opportunity for affected residents to participate in the decision-making process, voicing their comments in support of or against the proposed application. The public hearing process provides for local government transparency in cases where otherwise healthy trees are considered for removal.
- 2.9 Application Denial/Appeal – If a denial is issued by Cerritos Planning Commission for the proposed application, the property owner(s) may elect to withdraw the application or revise the plan to address the Planning Commission's comments for consideration at a continued public hearing. The HOA may also elect to appeal the Planning Commission's decision to the City Council.
 - Appeal must be submitted to the City Clerk's Office within fifteen (15) days of said denial.
 - Appeal fee of \$500 shall apply, to cover the cost of the public hearing.
 - The determination of the City Council shall be final and effective immediately.

4.1 Tree Reforestation Plan - three (3) hard copy sets*

The Tree Reforestation Plan shall be prepared by a Qualified Landscape Professional. "Qualified Landscape Professional" means a registered or licensed professional with credentials, such as a Certified Arborist or State-Licensed Landscape Architect.

Site Plan/Aerial Photo Specifications: For the Tree Reforestation Plan, each site plan or aerial photo (printed on 11" x 17" sheet) shall show the following:

- Primary property address identified in item 1.2 above
- Name of shopping center or business, if applicable
- North arrow
- Labeled streets
- Location of each tree, numbered according to the tree legend
- Minimum 4" by 6" blank/white area for approval stamp
- Drawing/photo must be clear and legible.
- If printed in color, it must be easily reproducible in black and white.

Photograph Specifications: The photograph sheets (minimum 8.5" x 11") shall show:

- At least one color photo (minimum 4" x 6") of each tree proposed for removal, numbered according to the tree legend

*Note: Following completion of staff's review, additional hard copy sets of corrected plans will be required for review by the Cerritos Planning Commission, along with a CD or emailed files containing electronic copies of the plans. The request for these items will be made in writing by City staff.

4.1.1 Tree Disposition Plan

The Tree Disposition Plan shall include:

- Site plan and/or aerial photo (printed on 11" x 17" sheet) identifying the location and condition of the subject tree(s) to be removed within the commercial or industrial area, numbered according to the tree legend. Trees eligible for removal must be dead, dying, diseased, and/or constitute a public nuisance as determined by the Director of Public Works or his/her designee.
- Tree legend
- Photographs of the subject tree(s)
- Supporting documentation (minimum 8.5" x 11") illustrating the reason(s) for tree removal

4.1.2 Building Inspection Report

The Building Inspection Report shall be prepared by an independent certified building inspector retained by the property owner and shall include:

- Evidence of a "private nuisance" existing by way of the subject tree causing "significant structural damage" to privately-owned commercial/industrial property. (See Section 2.1 above for definitions of "private nuisance" and "significant structural damage.")

- 4.1.3 **Tree Replacement Plan**
The Tree Replacement Plan shall include:
 - Site plan and/or aerial photo (printed on 11" x 17" sheet) identifying the location and type of replacement tree(s) that is required to be comparable in size and shape to the corresponding subject tree(s) being removed
 - Tree legend

- 4.1.4 **Planting Plan Detail**
The Planting Plan Detail is required only when the replacement tree is to be located in an alternative location and shall include:
 - Drawing (printed on 8.5" x 11" or 11" x 17" sheet) identifying the plant material (shrubs and/or groundcover) to be installed in the subject area

- 4.1.5 **Schedule of Performance**
The Schedule of Performance establishes the timeframe for completing the removal and replacement of City-approved trees and/or the phased removal and replacement of City-approved trees over an extended period of time. The Schedule of Performance shall include:
 - Document (printed on 8.5" x 11" sheet) identifying the outer date (month and year) planned for completion of the removal and replacement of each tree
 - If a phased schedule is proposed, the outer date (month and year) corresponding to each tree, numbered according to the tree legend

4.2 Property Owner’s Consent to File Application
This form is attached to the end of this application. It must be signed by the property owner(s) and notarized.

4.3 Public Notice Base Map
Submit one copy of a base map showing the subject HOA, including all properties within the commercial or industrial property, and adjacent properties within 500 feet of the exterior boundaries of the commercial or industrial property.

- Each property must be numbered to correspond to the information on the Gummed Mailing Labels (see item 4.4 below).
- The map must be printed to scale at 1" = 100'-0" or 1" = 200'-0".
