Introduction

The Cerritos *Economic Profile* is a report that is prepared on a quarterly basis to conduct market trend analysis and to develop strategies for the City's Business Retention and Expansion (BRE) Program. The BRE program was created in order to identify business climate issues and individual actions that would improve the operating conditions of existing businesses. It also provides the mechanism to identify "at risk" businesses and respond to their specific needs.

The development of the BRE was identified in the City of Cerritos Economic Development Strategic Plan (EDSP), which was adopted by the Cerritos City Council in 2007. As identified in the EDSP, Goal BAR-1 recommends that the City identify the "best customers" among existing Cerritos businesses and initiate an outreach program. In addition, Goal BAR-7 recommends that staff dedicate resources to track market trends.

With this in mind, this *Economic Profile* is a product of the EDSP and complements the BRE by tracking market trends for the preparation of economic development strategies. The *Economic Profile* will assist City staff in responding proactively to the ever changing business climate. In addition, this report supports the City's commitment to creating a business-friendly environment in which quality jobs may grow and prosper. The report will also assist the City in expanding on its tremendous success with its economic base by identifying growth industries as well as declining industries in need of reinvigoration.

The *Economic Profile* is comprised of several sections, which includes Major Revenues, Employment, Housing, and Commercial Real Estate. The statistical data is compiled from a wide variety of sources, such as the California Employment Development Department, Cerritos' Finance Division, and several real estate publications. The quarterly report provides a wealth of information and will be used by City staff to monitor the economic profile of the City in order to develop precise strategies to improve the business climate in Cerritos. The *Economic Profile* is the first of its kind in the local Gateway Cities region and it illustrates the commitment of Cerritos to its tradition of being "A City with Vision."

The publication of the *Economic Profile* is a business attraction and retention effort by the Cerritos' City Council and it illustrates the City's commitment to economic development in order to continue to provide high-quality services to the public. With this in mind, the City is proud to present this quarterly report for the residents of Cerritos, businesses, developers, and other outside business professionals in order to attract new businesses and to grow the local economy.

Economic Development Commission

The Economic Development Commission acts in an advisory capacity to the City Council on the needs of existing businesses and the availability of economic development opportunities and resources. The Commission is responsible for providing input on business retention, business expansion, business marketing issues and technology related issues.

Additionally, the Commission reviews the *Economic Profile* on a quarterly basis and provides guidance on a variety of issues including revenues, housing, employment, and commercial real estate. The Commissioners, which are appointed by the City Council, have a diverse business background and provide a unique perspective on economic development issues facing the City.

Regular meetings of the Economic Development Commission are held at 7:00 p.m. on the second Tuesday of the month, in February, May, August and November at the City Hall Council Chambers.

The Commission members include:

Carmelita Lampino
Chair

Brian Hews
Vice Chair

Richard Alegria
Commissioner

Robert Buell
Commissioner

Riaz Surti
Commissioner

2010 Winner
Most Business-Friendly City Award

Executive Summary

Cerritos Economic Profile for Spring 2018

For Spring 2018, the City of Cerritos is showing continued economic growth for a majority of sectors, which include sales tax from the Cerritos Auto Square, employment, and housing. The Cerritos Auto Square sales tax revenue increased by 6.7%, and Transient Occupancy Tax increased from the previous year by 5.7%. The overall vacancy rate remained low at 4% and Cerritos housing prices (single-family and multi-family) continued to increase from the previous year and the first quarter average was at \$740,733 (single-family). Below is a brief summary of each of the economic indicators for the City of Cerritos, which are explained in further detail throughout this Economic Profile.

Major Revenues

Sales tax revenue for the 2017-Q4 totaled \$7,659,388 which is a slight 0.5% decrease from the fourth quarter in 2016, amounting to an approximate decrease of \$38,863. However, in a fourth quarter analysis over the past three years, sales tax revenue increased significantly from \$6.1 million in 2014-Q4 to \$7.6 million in 2017-Q4.

The Cerritos Auto Square generated the greatest amount of sales tax for the City in 2017-Q4, totaling \$4 million, which was a 6.7% increase from last year, amounting to an increase of \$255,645. The Los Cerritos Center generated the second highest sales tax at \$1.2 million, which was a minor decrease of \$168,143 from 2016-Q4. The third highest sales tax generator was the Cerritos Industrial Park at \$707,836, which equated to a 14% increase from the previous year.

In the first quarter of 2018, the Cerritos Auto Square sold a total of 13,407 cars, which was a decrease of 1,618 cars from last year's all time high for the same quarter. For 2018-Q1, the City processed a total of 1,066 new and renewal of business licenses (9.4% increase), which resulted in \$300,850 in total revenue. The City also received \$188,975 in Transient Occupancy Tax revenue, which is a 5.7% increase over the same quarter in 2017.

Unemployment/Employment

The unemployment rate among Cerritos residents is approximately 3.4% (March 2018 estimate), which is one of the lowest amongst surrounding cities and one of the lowest in comparison to cities with similar size and/or demographics in the region. Additionally, the Cerritos labor force for February 2018 was 25,619 and was constituted by 24,642 employed and 977 unemployed residents.

Commercial Real Estate

Cerritos currently has 859,429 square feet of vacant space, which is approximately 4% of the total available real estate space in Cerritos (21,196,480 sq. ft.). Of the total 4% vacant space in Cerritos, 79% is industrial space (616,933 sq. ft.), 16% is retail space (125,334 sq. ft.), and 4% is office space (117,162 sq. ft.). Industrial vacant space in Cerritos includes a greater proportion of warehousing and distribution businesses, which require large facilities. Due to the large amount of space required for industrial warehousing, a single vacancy may have a significant impact on available industrial space.

Housing

For 2018-Q1, the single-family median home sale price in Cerritos was approximately \$740,733. In a regional comparison of the first quarter, homes in Cerritos have maintained their values and were higher than most cities of comparable size and demographics. Condominiums has an average median sales price of \$527,867 which was higher than the previous year.

Major Economic Indicators—Nationwide

The Bureau of Labor Statistics (BLS) is a unit of the United States Department of Labor and serves as the principal fact-finding agency for the United States Government in the broad field of labor and statistics. The BLS is a governmental statistical agency that collects, processes, analyzes, and disseminates essential statistical data to the American public, the United States Congress, other Federal agencies, State and local governments, business, and labor representatives.

On a monthly basis, the BLS produces a brief economic “snapshot” of the United States economy on their website, which includes economic indicators from a variety of sectors. These economic indicators help business professionals to gauge the economy and assists in creating policies and strategies to stimulate economic growth. Below is the most recent economic “snapshot” from the BLS.

Although this *Economic Profile* serves as a “snapshot” for the City of Cerritos’ local economy, economic indicators, as provided below, provide an overview and comparison between the City and the United States.

Brief Overview of the United States Economy

Consumer Price Index (CPI):

-0.1% in March 2018

As a widely used measure of inflation, the Consumer Price Index measures price movements of major groups of goods and services. The CPI presents price changes on food, energy, housing, apparel, transportation, medical care, recreation, and education.

Unemployment Rate:

4.1% in March 2018

Current unemployment rate for the United States.

Payroll Employment:

+103,000(p) in March 2018

The number of new persons added to the payroll at the Federal level.

Average Hourly Earnings:

+\$0.08(p) in March 2018

Increase in average hourly earnings.

Producer Price Index - Final Demand:

+0.3% in March 2018

A measurement of the average changes in prices received by domestic producers for their output.

Employment Cost Index (ECI):

+0.6% in Fourth Quarter of 2018

A quarterly report from the U.S. Department of Labor that measures the growth of employee compensation (wages and benefits). The index is based on a survey of employer payrolls in the final month of each quarter. The ECI tracks movement in the cost of labor, including wages, fringe benefits and bonuses for employees at all levels of a company.

U.S. Import Price Index:

+0.3% in March 2018

A measurement of the average changes in prices of goods and services that are imported to the United States.

U.S. Export Price Index:

+0.3% in March 2018

A measurement of the average changes in prices of goods and services that are exported from the United States.

Major Revenues

Major Revenues

Sales Tax

For 2017-Q4, businesses in the City generated \$7.6 million in sales tax revenue, which was comparable to 2016-Q4 (only a \$38,863 or 0.5% decrease). Over the past four quarters (2017-Q1 to 2017-Q4), sales tax for the City has averaged \$7 million with no significant decrease in sales tax revenue in quarter-per-quarter comparison from the previous year (a slight 0.5% decrease in 2017-Q4). Fourth quarter sales tax is typically higher than all other quarters due to holiday shopping spending. Subsequently, sales tax in the first quarter tends to decrease with the end of the holiday shopping season. Please note that sales tax reporting is one quarter behind and the data presented herein is the most current data available.

Sales Tax Revenue – Calendar Year

Sales tax revenue increased from \$23,238,546 in 2014 to \$25,704,791 in 2015 (10.6% increase or \$2,466,245). In 2016, sales tax again exceeded the previous year, increasing from \$25,704,791 in 2015 to \$27,726,062 in 2016 (7.9% increase or \$2,021,271). In 2017, sales tax increased once again to a high of \$28,142,838, which equates to a 1.5% increase from 2016.

The City has experienced an increase in sales tax revenue over the past three years. This may be attributed to the growing local economy, a declining unemployment rate, a low vacancy rate at the Industrial Park and regional commercial centers, new commercial development in the City, and an increase in auto sales at the Cerritos Auto Square.

Sales Tax Revenue from the Past Four Calendar Years

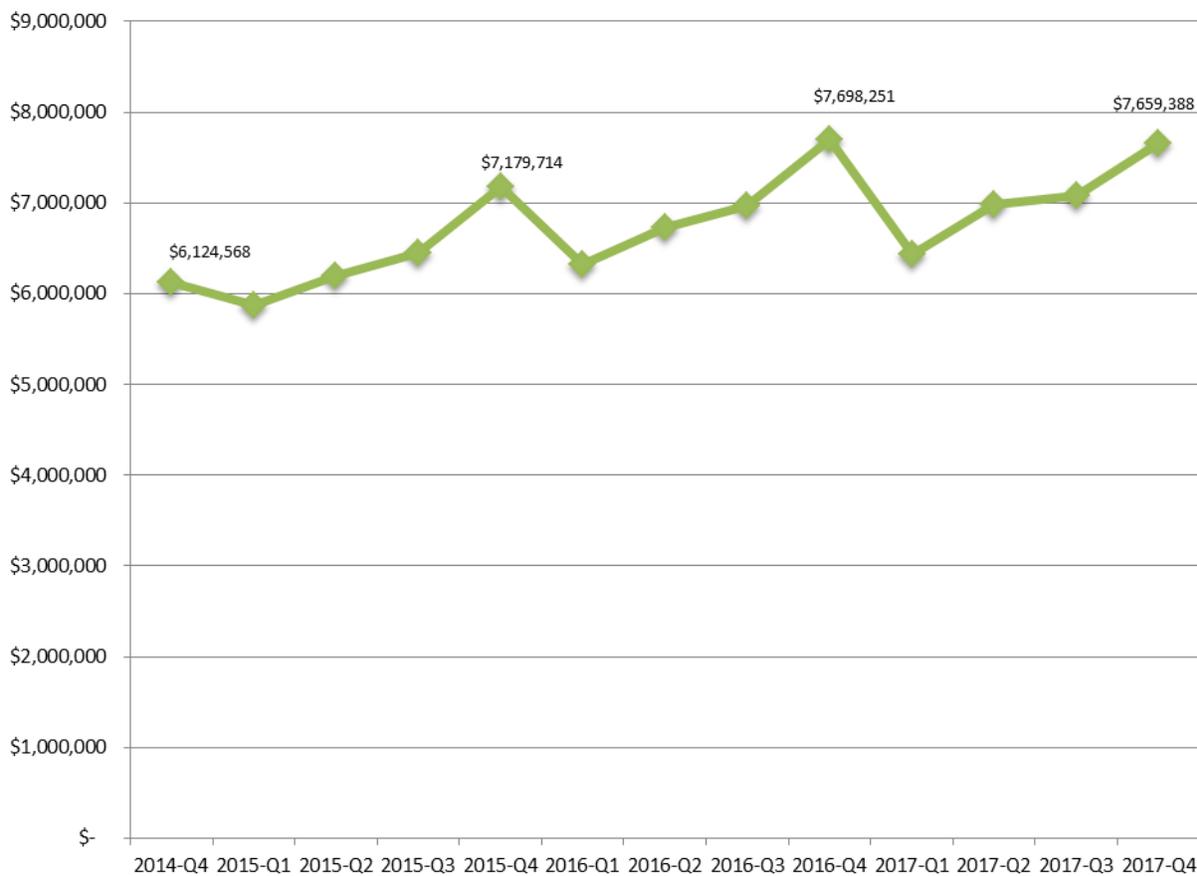

2014	2015	2016	2017
\$23,238,546	\$25,704,791 ↑	\$27,726,062 ↑	\$28,142,838 ↑

Major Revenues

Sales Tax – Fourth Quarter Analysis

Based on a trend analysis, quarterly sales tax was at \$6.1 million in 2014-Q4, increased significantly in 2015-Q4 to \$7.1 million, increased again in 2016-Q4 to \$7.6 million and remained at the current level of \$7.6 million in 2017-Q4, which was the highest reporting period over four years. The trend line indicates an increase in sales tax revenue in a fourth quarter-per-quarter analysis. The continued growth in sales tax revenue can be attributed to an increase in consumer confidence, which resulted in increased shopping activity at the Cerritos Auto Square, the Los Cerritos Center, Plaza 183, and other shopping centers throughout the City. For 2017-Q4, the United States Department of Commerce reported that the United States economy grew by 2.9% (gross domestic product) and Cerritos sales tax was comparable to the previous year.

Fourth Quarter Trend Analysis

Fourth Quarter Analysis

2014-Q4	2015-Q4	2016-Q4	2017-Q4
\$6,124,568	\$7,179,714	\$7,698,251	\$7,659,388

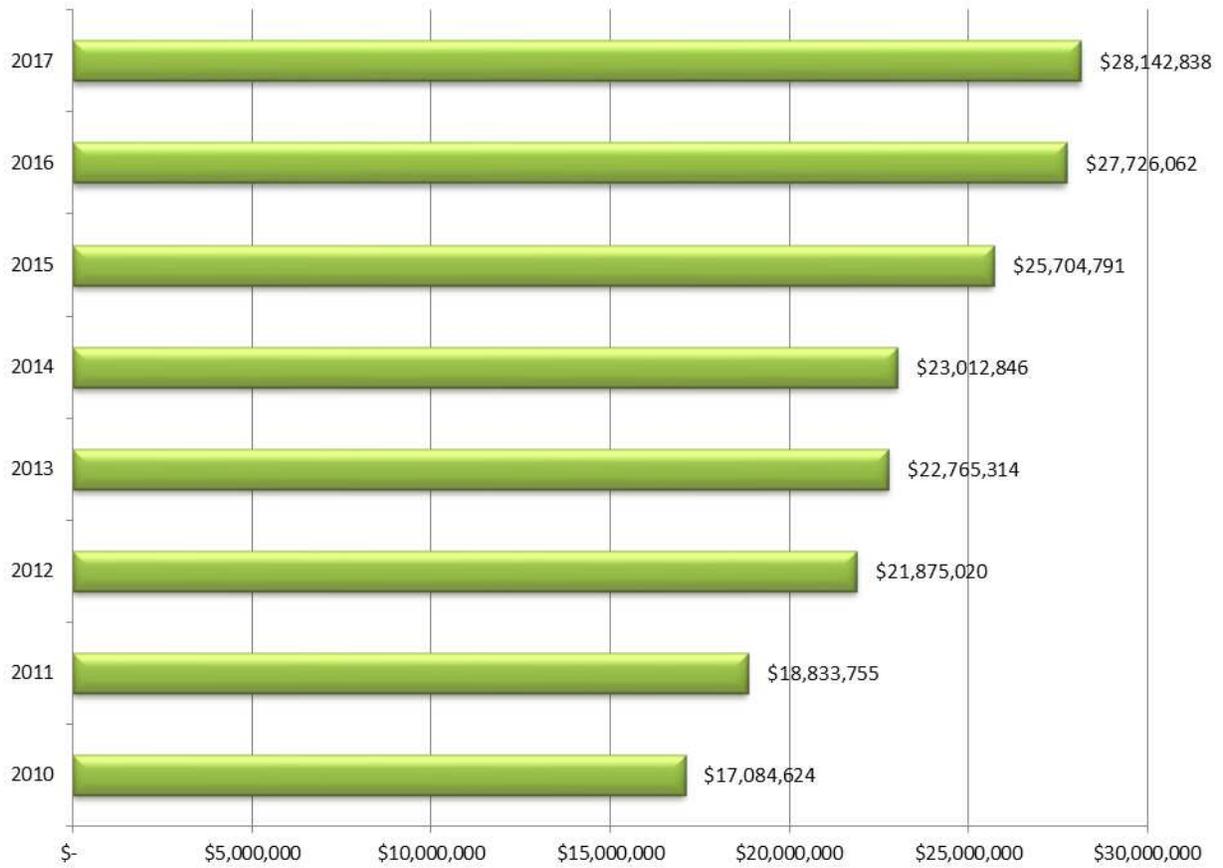

2017-Q4 United States Gross Domestic Product (GDP): 2.9% increase from the previous year
 2017-Q4 Cerritos Sales Tax: Remained the same as in 2016-Q4

Major Revenues

Sales Tax – Annual Trend Analysis and Projection

Based on a trend analysis of sales tax data from 2010 to 2017, annual sales tax has increased incrementally each year. This annual incremental increase is a positive sign for the local economy for Cerritos. From 2010 to 2017, sales tax increased significantly by \$11,058,214, amounting to a 64% increase over a seven (7) year period.

Sales Tax Revenue from 2010 to 2017

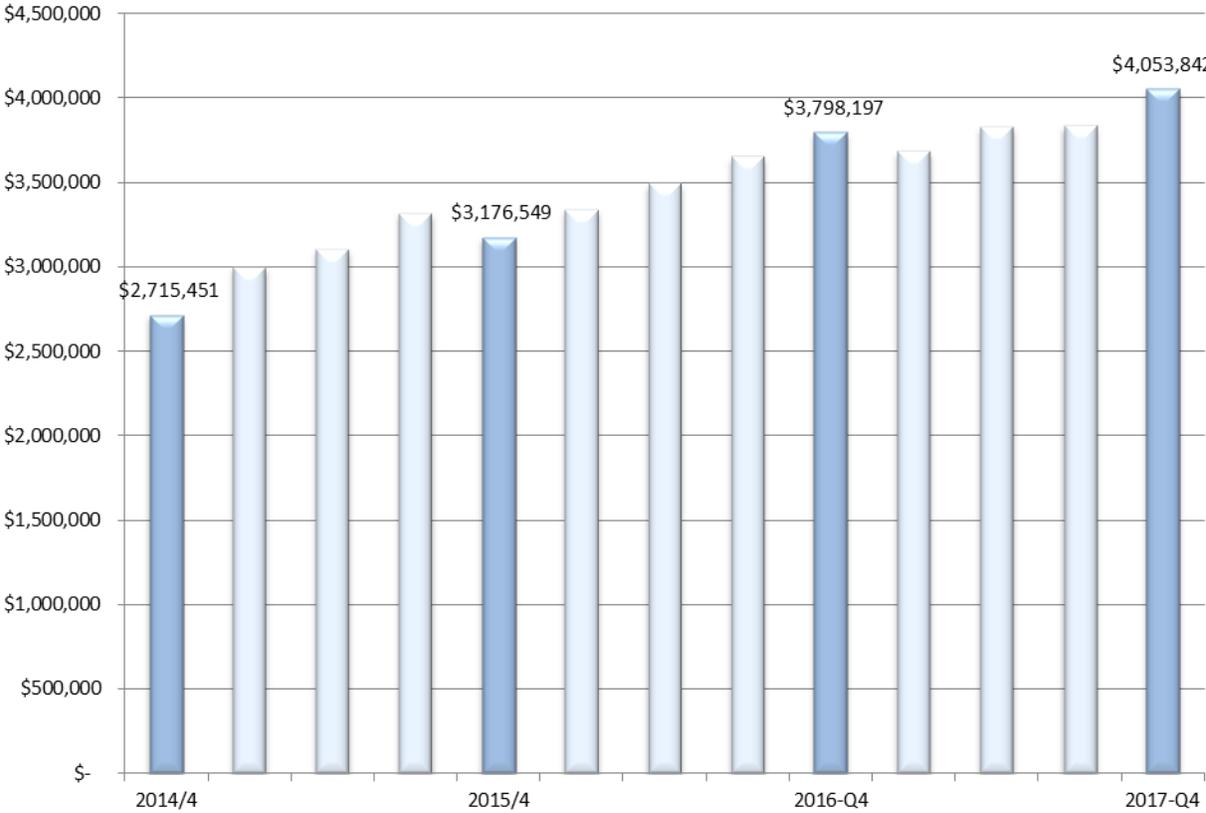

2010	2011	2012	2013	2014	2015	2016	2017
\$17 M	\$18 M (10%) ↑	\$21 M (16%) ↑	\$22 M (4%) ↑	\$23 M (1%) ↑	\$25 M (11%) ↑	\$27 M (7%) ↑	\$28 M (1%) ↑

Major Revenues

Sales Tax – Cerritos Auto Square

The Cerritos Auto Square generated the greatest amount of sales tax of any business sector in the City during 2017-Q4 (approximately \$4 million). In a quarter-to-quarter comparison, 2017-Q4 (\$4 million) increased from 2016-Q4 (\$3.7 million) or an increase of \$255,645 which equates to 6.7%. Additionally, 2016-Q4 was higher than 2015-Q4 (\$3.1 million) and 2014-Q4 (\$2.7 million). This trend analysis indicates an increase in auto sales and a robust local economy. According to the Wall Street Journal, the sale of light-duty trucks and small sport utility vehicles (SUV) increased in January 2018 and February 2018. Sales of light-duty trucks increased 8% in January 2018 and increased again by 3.8% in February 2018. Small SUV's sales increased by 14.2% in January 2018 and again by 16.8% in February 2018. The top three vehicles sold for January 2018 and February 2018 include the Ford F Series Pick Up Truck, Chevrolet Silverado, and Nissan Rogue. Sales tax from the Cerritos Auto Square also includes sales of auto parts, accessories, and servicing of vehicles, which are all offered by the dealers.

Cerritos Auto Square
Average: \$3,461,812

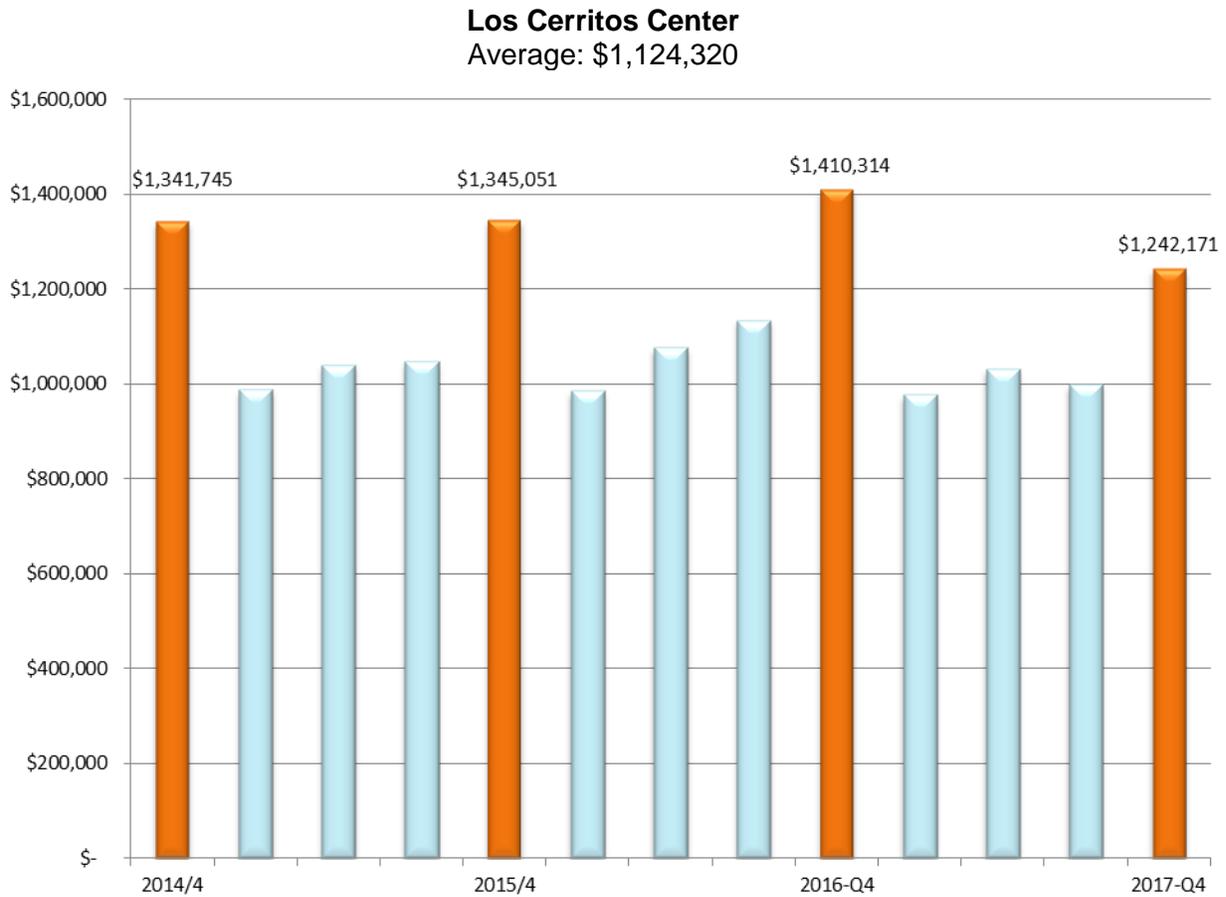

2014-Q4 to 2017-Q4

2014-Q4	2015-Q4	2016-Q4	2017-Q4
\$2,715,451	\$3,176,549	\$3,798,197	\$4,053,842

Major Revenues

Sales Tax – Los Cerritos Center

In 2017-Q4, the Los Cerritos Center generated the second highest amount of sales tax revenue for the City’s General Fund at \$1,242,171. Based on the trend analysis, sales tax revenue remained constant for the fourth quarter at approximately \$1.3 million over a four year period. According to the United States Census Bureau, E-commerce sales increased by 16.9% in the fourth quarter, which may account for 2017-Q4 sales tax at the Los Cerritos Center remaining consistent with 2017-Q4 total sales tax. In total, the Los Cerritos Center averaged \$1.1 million from 2014-Q4 to 2017-Q4 (including all quarters from 2014 to 2017).

2014-Q4 to 2017-Q4

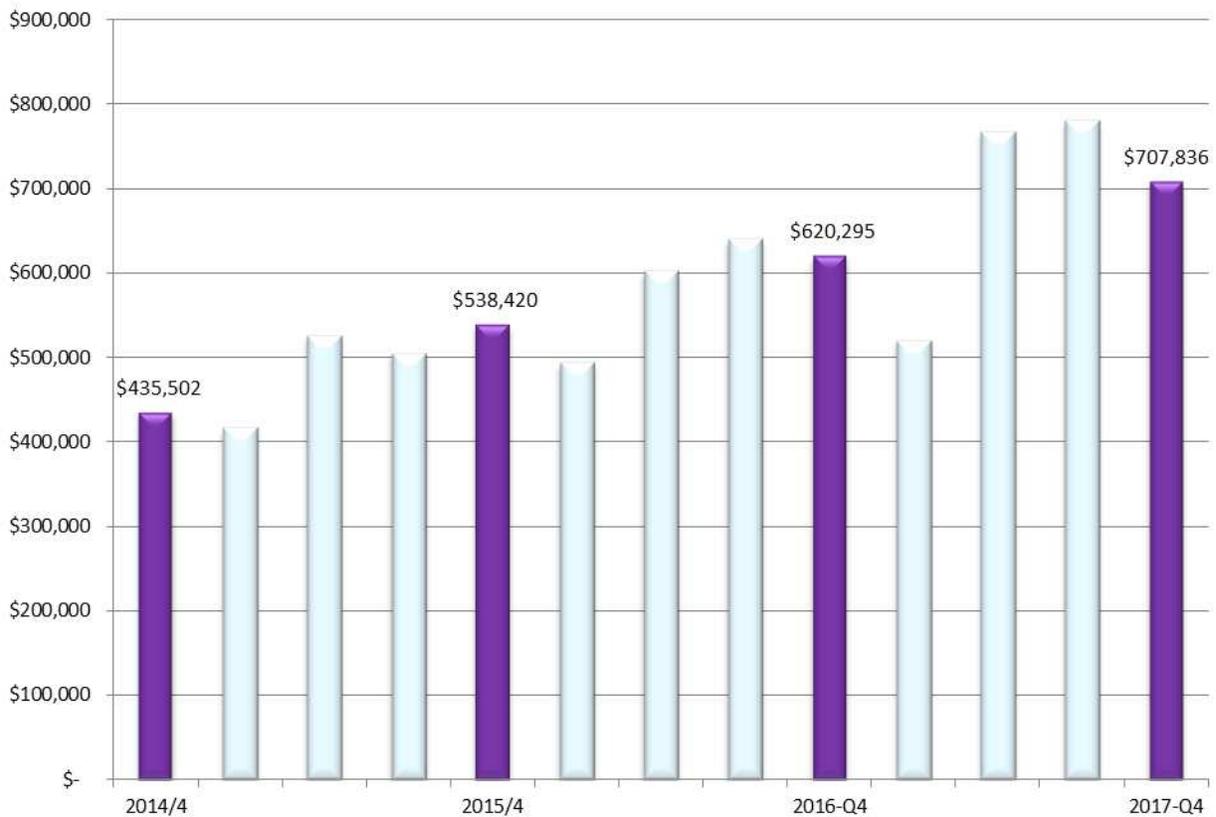

2014-Q4	2015-Q4	2016-Q4	2017-Q4
\$1,341,745	\$1,345,051	\$1,410,314	\$1,242,171

Major Revenues

Sales Tax – Cerritos Industrial Park

The Cerritos Industrial Park is the third highest sales tax generator in Cerritos. The Cerritos Industrial Park generated \$707,836 in 2017-Q4, which is a 14% increase from 2016-Q4 (\$87,541 increase). Based on the trend analysis, sales tax revenue at the Cerritos Industrial Park has progressively increased each fourth quarter from 2014-Q4 to 2017-Q4. According to the United States Census Bureau (Census), sales of total manufacturing and trade industries increased nationwide by 3% for 2017-Q4. The Cerritos Industrial Park sales tax increase of 14% exceeded national averages of 3% for 2017-Q4 in the manufacturing and trade industries, as reported by the Census. Based on this data, the Cerritos Industrial Park exceeded national averages in terms of productivity and sales for the fourth quarter. During this quarter, the City maintained a low industrial vacancy rate of 3%, which resulted in more businesses operating and generating sales tax.

Cerritos Industrial Park
Average: \$581,156

2014-Q4 to 2017-Q4

2014-Q4	2015-Q4	2016-Q4	2017-Q4
\$435,502	\$538,420	\$620,295	\$707,836

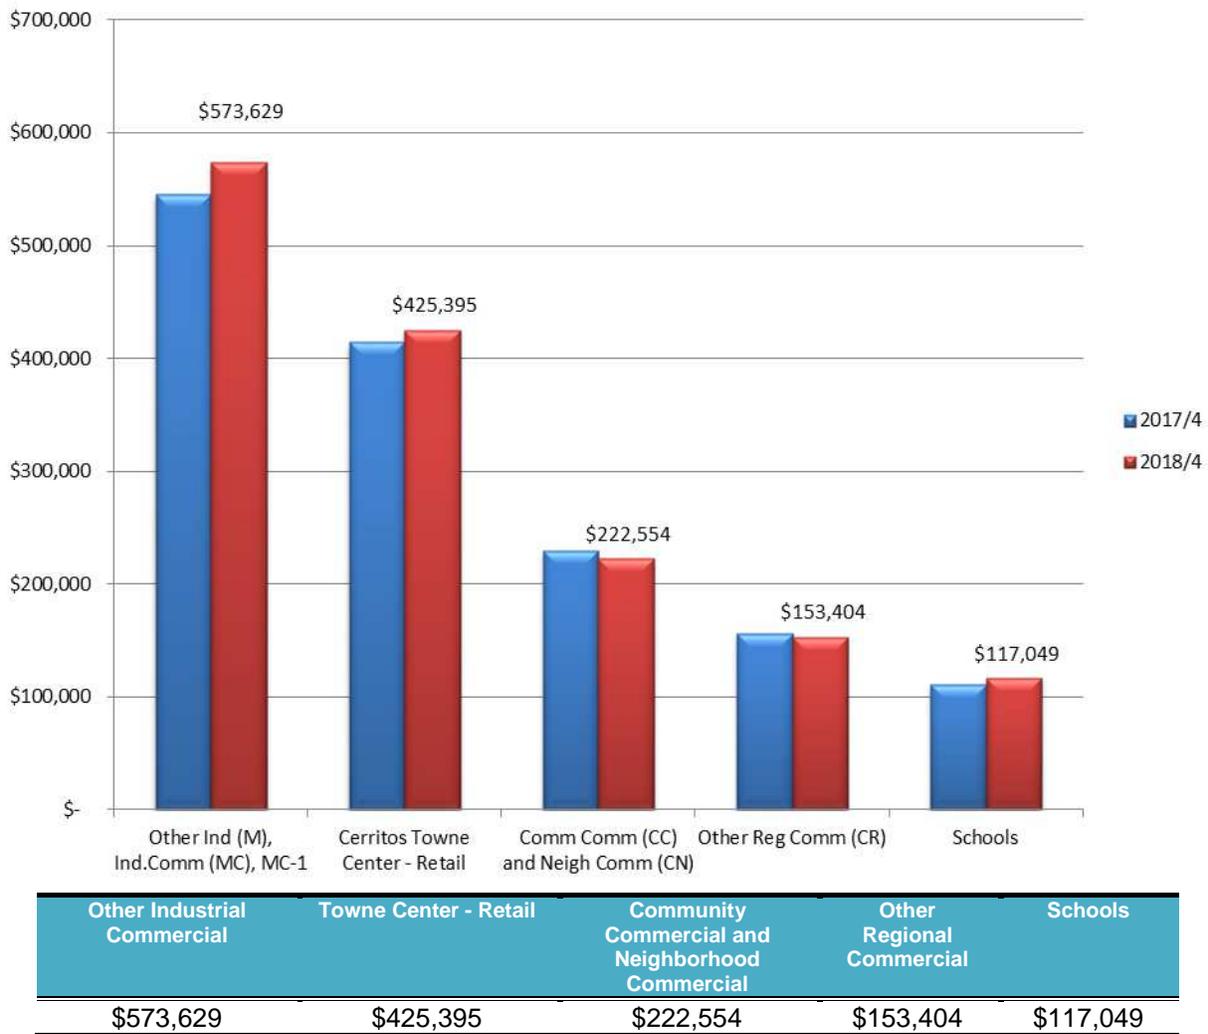

Major Revenues

Other Sectors

As mentioned previously, the majority of Cerritos sales tax is generated by the Cerritos Auto Square, Los Cerritos Center, and the Cerritos Industrial Park. Additionally, there are five other sectors that also contribute towards generating sales tax for the City for 2017-Q4, as shown in the graph provided below.

Of the five sectors, the Other Industrial (M), Industrial Commercial (MC), and Industrial Commercial One (MC-1) sectors generated the greatest amount of sales tax at \$573,629. These sectors include businesses operating in these zones which are not part of the Cerritos Industrial Park. Business in the Industrial Commercial zone may include retail sales, machine shops, wholesaling and warehousing. These businesses are located in the industrial zone along Alondra Boulevard and Carmenita Road (north east section of the City) and businesses located along Valley View Boulevard (eastern section of the City bordering the City of Buena Park and the City of La Mirada).

Other Sectors

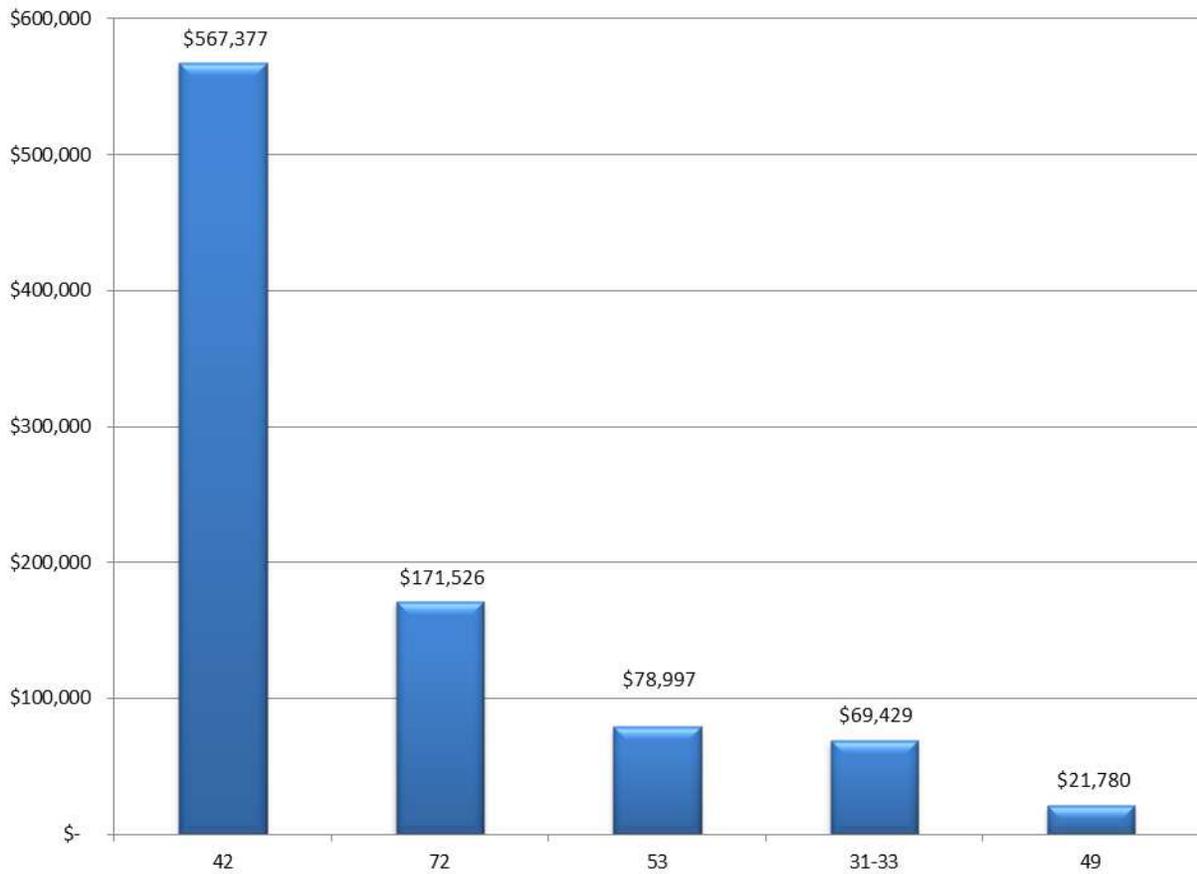

Major Revenues

Top Five Sectors By NAICS Code

In Cerritos, the Retail Trade NAICS sector generated \$5 million in sales tax revenue for 2017-Q4 or 65% of total sales tax revenues generated during 2017-Q4. However, there are other sectors identified by the North American Industry Classification System (NAICS) that generate sales tax for the City. Code 42 (Wholesale Trade) generated the highest sales tax at \$567,377. Additionally, Code 72 (Accommodation and Food Services) generated \$171,526, Code 53 (Real Estate Rental and Leasing) generated \$78,997, Code 31-33 (Manufacturing) generated \$69,429, and Code 49 (Transportation and Warehousing) generated \$21,780 in sales tax revenue.

Top Five Sectors – NAICS Code

42	72	53	31-33	49
\$567,377	\$171,526	\$78,997	\$69,429	\$21,780

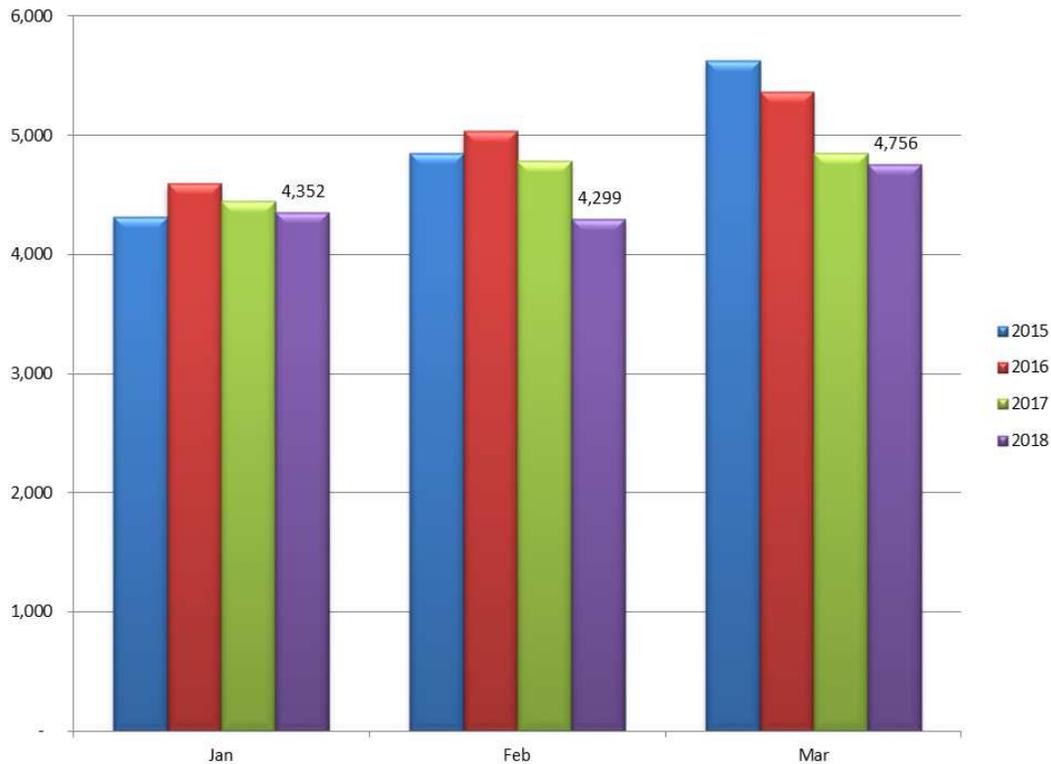

Major Revenues

Auto Sales

Cerritos is well known for the Cerritos Auto Square—the world's first and most successful auto mall. With 23 dealerships, the Cerritos Auto Square is located on Studebaker Road off the 605 Freeway at South Street. Developed in the early 1980's, in partnership with the City of Cerritos and the former Cerritos Redevelopment Agency, the Cerritos Auto Square generates approximately half of the City's sales tax revenue each year.

For 2018-Q1, vehicle sales decreased by 10.8% from the previous year's all-time high. According to the Wall Street Journal, automotive manufacturers experienced a decline in sales during the months of January 2018, February 2018, and March 2018 with the exception of light-duty trucks and small sport utility vehicles. Total sale of cars decreased by 10.8% in January 2018, total car sales decreased by 12.6% in February 2018, and total car sales decreased by 9.2% in March 2018, which amount to negative growth for 2018-Q1.

First Quarter - Number of Vehicles Sold in Cerritos Auto Square, Four Year Period

Cars Sold in 2018-Q1

	January	February	March	Q1 Total
2015-Q1	4,351	4,506	5,148	14,005
2016-Q1	5,046	5,096	5,421	15,563
2017-Q1	4,796	4,679	5,550	15,025
2018-Q1	4,352	4,299	4,756	13,407

2018-Q1 Total: 13,407
 2017-Q1 Total: 15,025
 Difference: (-1,618)

2018 Totals (January to March): 13,407
 2017 Totals (January to March): 15,025
 Difference: (-1,618)

Major Revenues

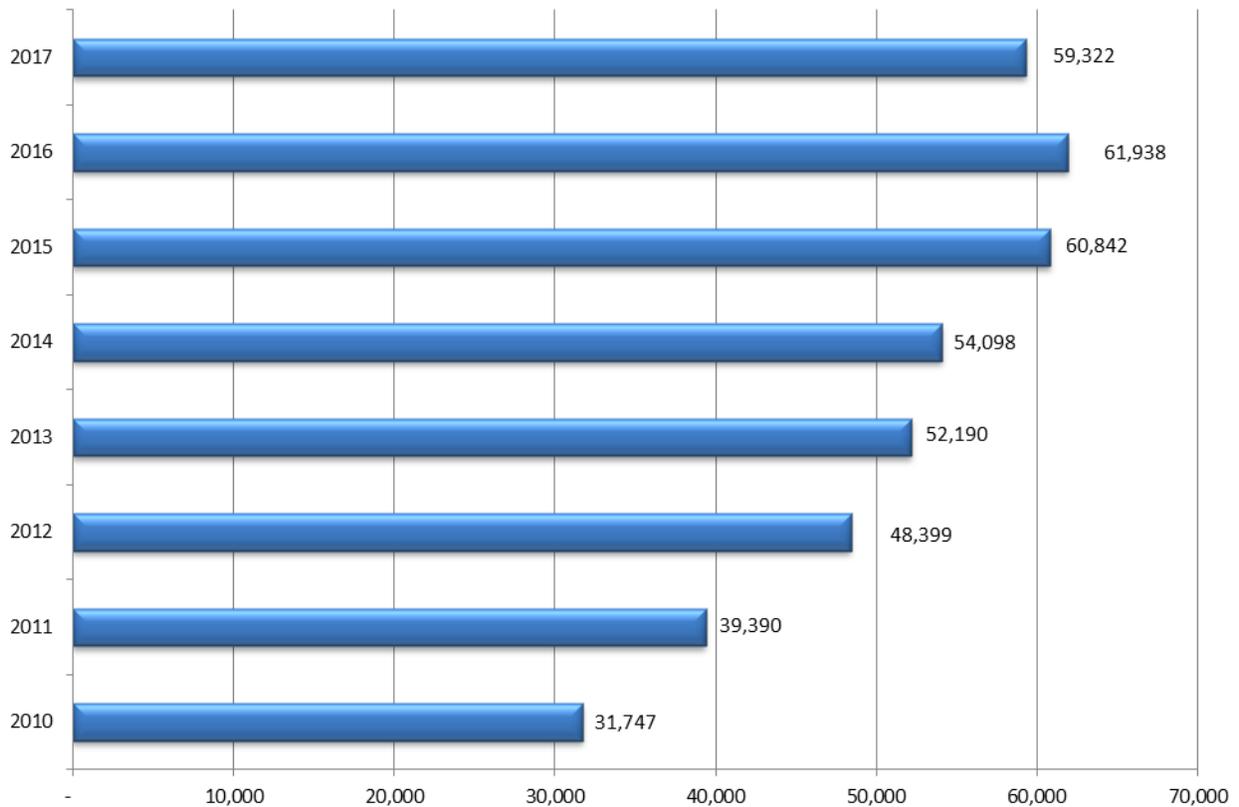

Auto Sales – Annual Totals

The Cerritos Auto Square experienced a decline in vehicle sales in 2017 (59,322) over sales in 2016 (61,938), which amounts to a reduction of 4.2% from the previous year (-2,616 vehicles). The 2017 calendar year marks a slight reduction in vehicle sales; however, the Cerritos Auto Square sales were similar to a record breaking year in 2015 and 2016 and amounted to the Cerritos Auto Square’s third highest sales year. Additionally, sales tax for the Cerritos Auto Square recorded higher sales tax revenue for the third quarter, which includes sales of auto parts, accessories, and servicing of vehicles at the dealers.

The Cerritos Auto Dealers Association has been compiling data since 1993 in order to conduct annual sales comparisons. From 1993 to 2017, a total of 1,197,180 cars have been sold, equating to an annual average of 47,887 vehicles. All sales data is provided to the City from the Cerritos Auto Dealers Association to the City on a weekly basis.

Trend Analysis – 2010 to 2017

2010	2011	2012	2013	2014	2015	2016	2017
31,747	39,390	48,399	52,190	54,098	60,842	61,938	59,322

Total Sales – 1993 to 2017

Total Sales: 1,197,180

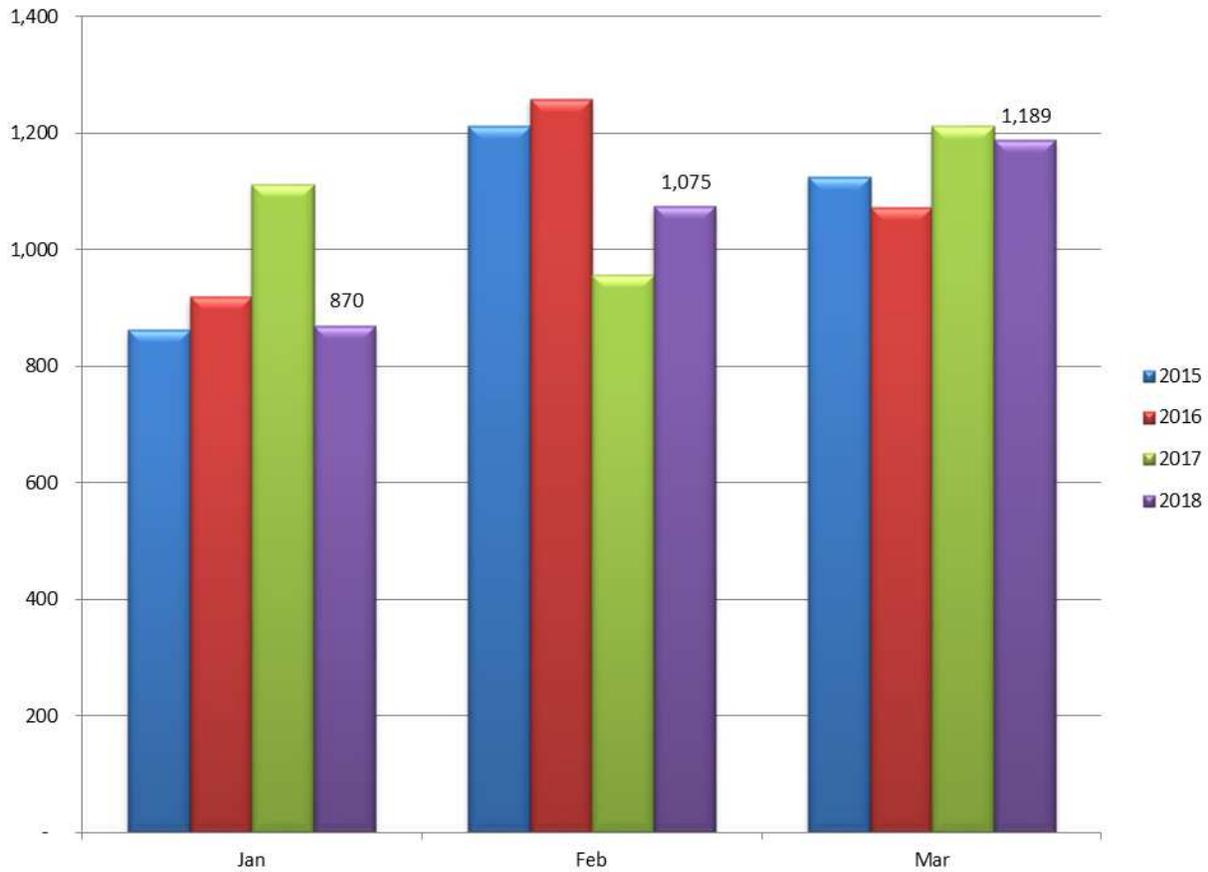

Average Sales Per Year: 47,887

Major Revenues

Auto Sales – Weekly Averages

Based on a trend analysis, weekly sales averages for the first quarter were lower than those from the previous year. The weekly average total for 2018-Q1 was 3,134, which was lower than 2017-Q1 by 4.5% (149 vehicles). Weekly averages for February 2018 were higher than February 2017, and March 2018 weekly averages were higher than in March 2016 and March 2015. Weekly averages were lower than averages from previous years and the auto industry reported sales decreases during the first quarter for new cars, which translated to lower weekly sales averages.

Weekly Averages: 2015-Q1 to 2018-Q1

	January	February	March	Q1 Total
2015-Q1	863	1,214	1,126	3,202
2016-Q1	919	1,260	1,073	3,252
2017-Q1	1,113	958	1,213	3,283
2018-Q1	870	1,075	1,189	3,134

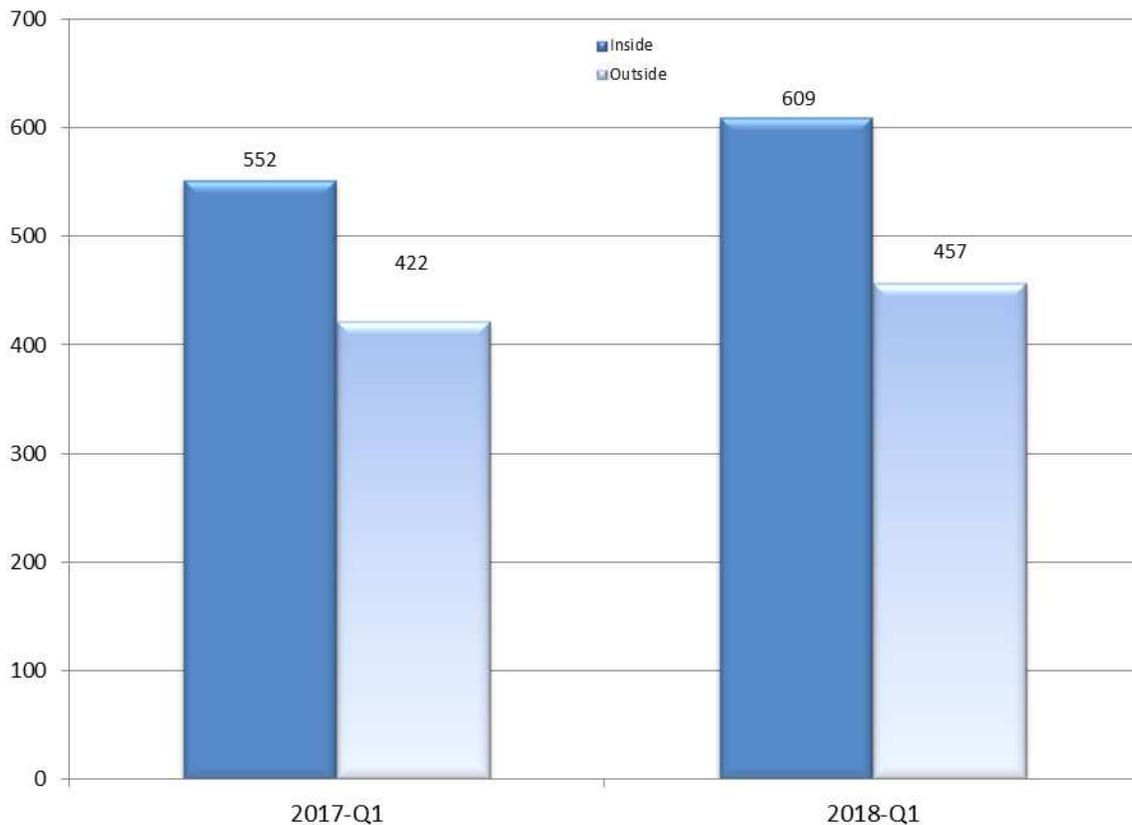

2018-Q1 Total: 3,134
 2017-Q1 Total: 3,283
 Difference: (-149)

Major Revenues

Business License

The tracking of new and renewed business licenses is one method of forecasting business growth in the City. For 2018-Q1, a total of 1,066 new and renewal business licenses were processed by the City, which is an increase of 9.4% from 2017-Q1 (an increase of 92 new and renewal of business licenses processed). With the issuance of 1,066 new and renewal business licenses issued in 2018-Q1, the City generated \$300,850 in business license fees for the General Fund during this quarter.

2018-Q1 New and Renewal of Business Licenses – Located in Cerritos and Located Outside Cerritos

2018-Q1 New and Renewal of Business Licenses

2018-Q1 Total New and Renewal of Business Licenses: 1,066

2017-Q1 Total New and Renewal of Business Licenses: 974

Difference: 92

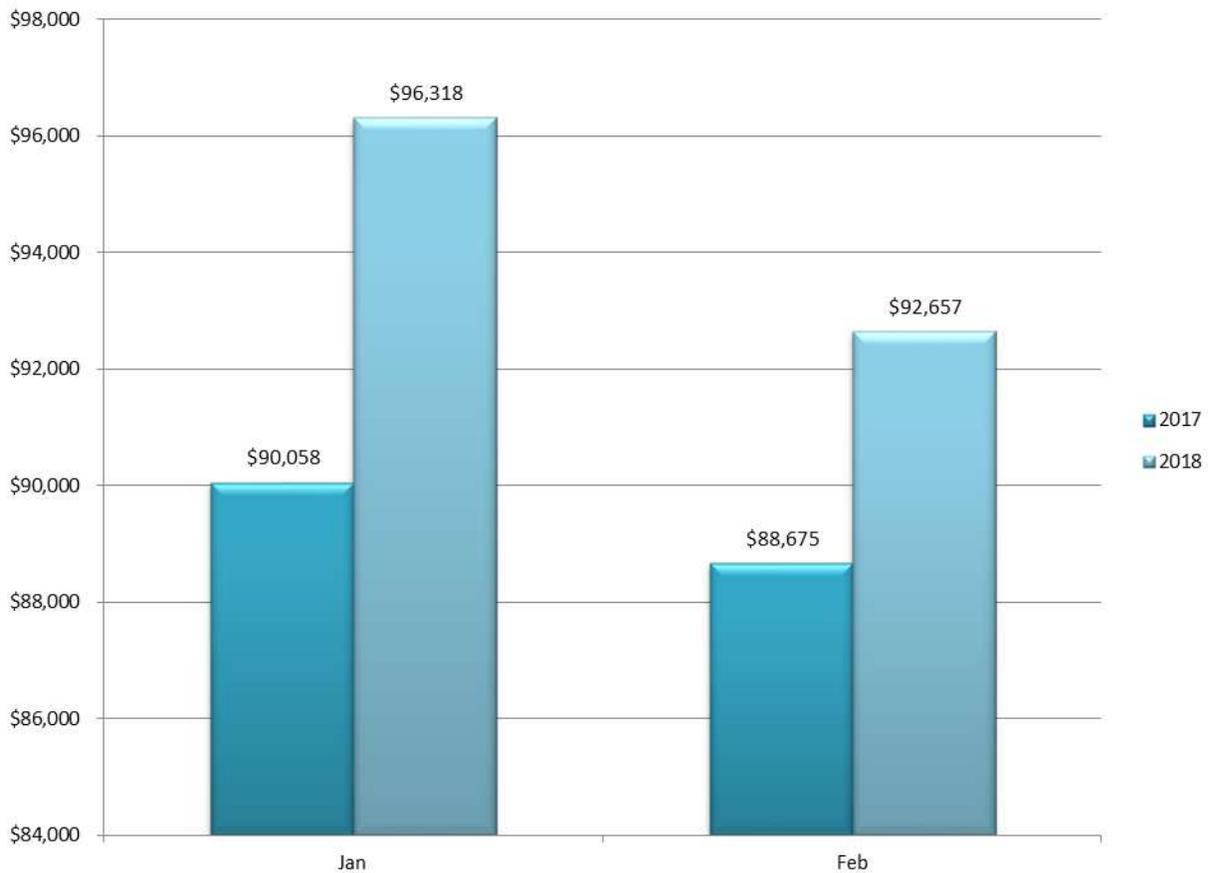

2018-Q1 Total Revenue: \$300,850

Major Revenues

Transient Occupancy Tax (TOT)

Occupancy by individuals at any hotel located in the City is subject to a Transient Occupancy Tax in the amount of twelve percent (12%) of the room rate charged by the hotel operator. This tax is commonly referred as a TOT. In the first two months of 2018-Q1, the City received a total of \$188,975, which is a 5.7% increase in TOT revenue collected by the City in the first two months of 2017-Q1 (\$178,733). January 2018 was the highest TOT generating month with \$96,318 in revenue and was a 7% increase from January 2017. Please note that March 2018 data was not available at the time of the preparation of this report.

2018-Q1 Transient Occupancy Tax

2018-Q1 Total Revenue

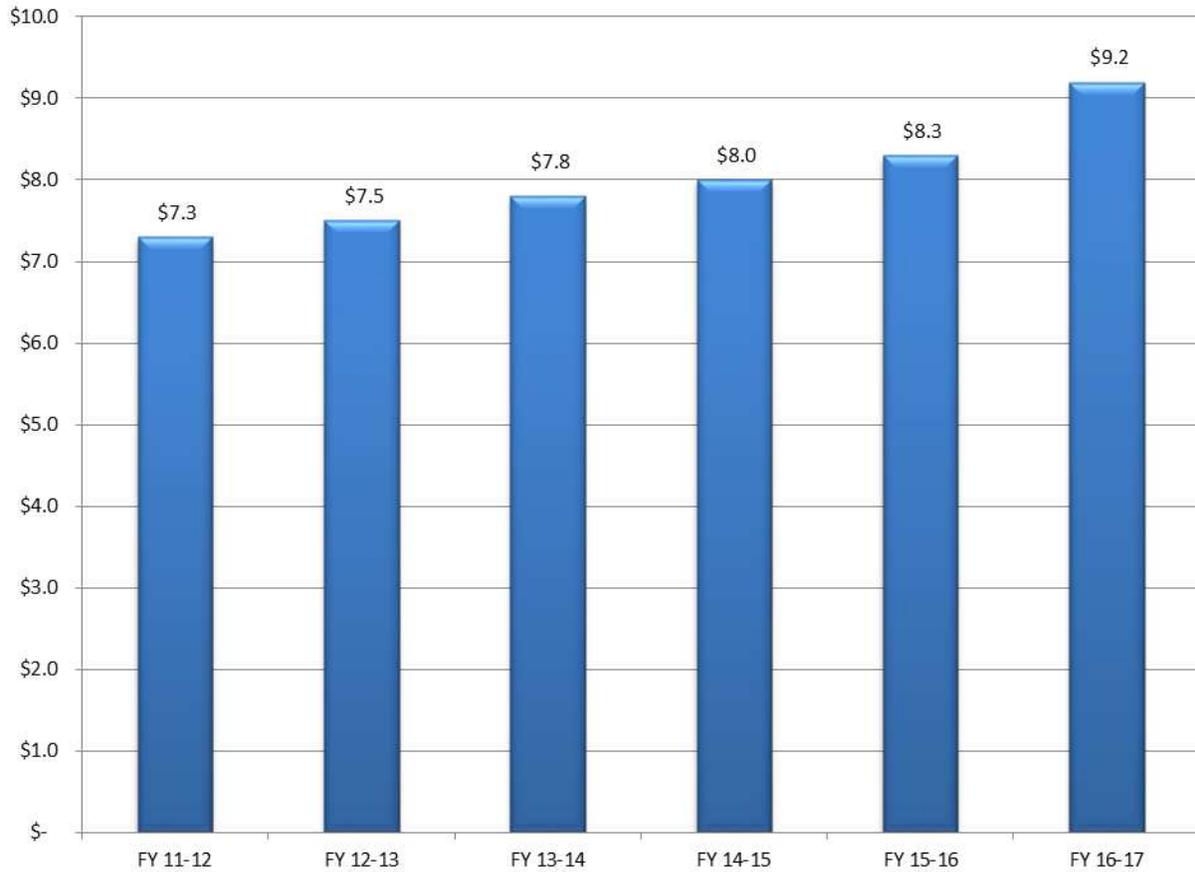

2018-Q1 Total Revenue: \$188,975
2017-Q1 Total Revenue: \$178,733
Quarter Difference: \$10,242
Percentage Difference: 5.7%

Major Revenues

Assessed Valuation

An assessed valuation is a value assigned to property by a municipality for the purpose of tax assessment. Based on a report developed by the City's financial consultant, the City's assessed valuation for all properties located within the City of Cerritos is at \$9,236,687,705. Based on a trend analysis, the City's assessed valuation has increased each year from Fiscal Year 2011-2012 through Fiscal Year 2016-2017. In a year-to-year comparison, the City's valuation increased from FY 2015-2016 to FY 2016-2017 by 10.8%.

**City of Cerritos Assessed Valuation
Six Year Time Line**

FY 11-12	FY 12-13	FY 13-14	FY 14-15	FY 15-16	FY 16-17
\$7.3 billion	\$7.5 billion	\$7.8 billion	\$8.0 billion	\$8.3 billion	\$9.2 billion

Unemployment

Unemployment

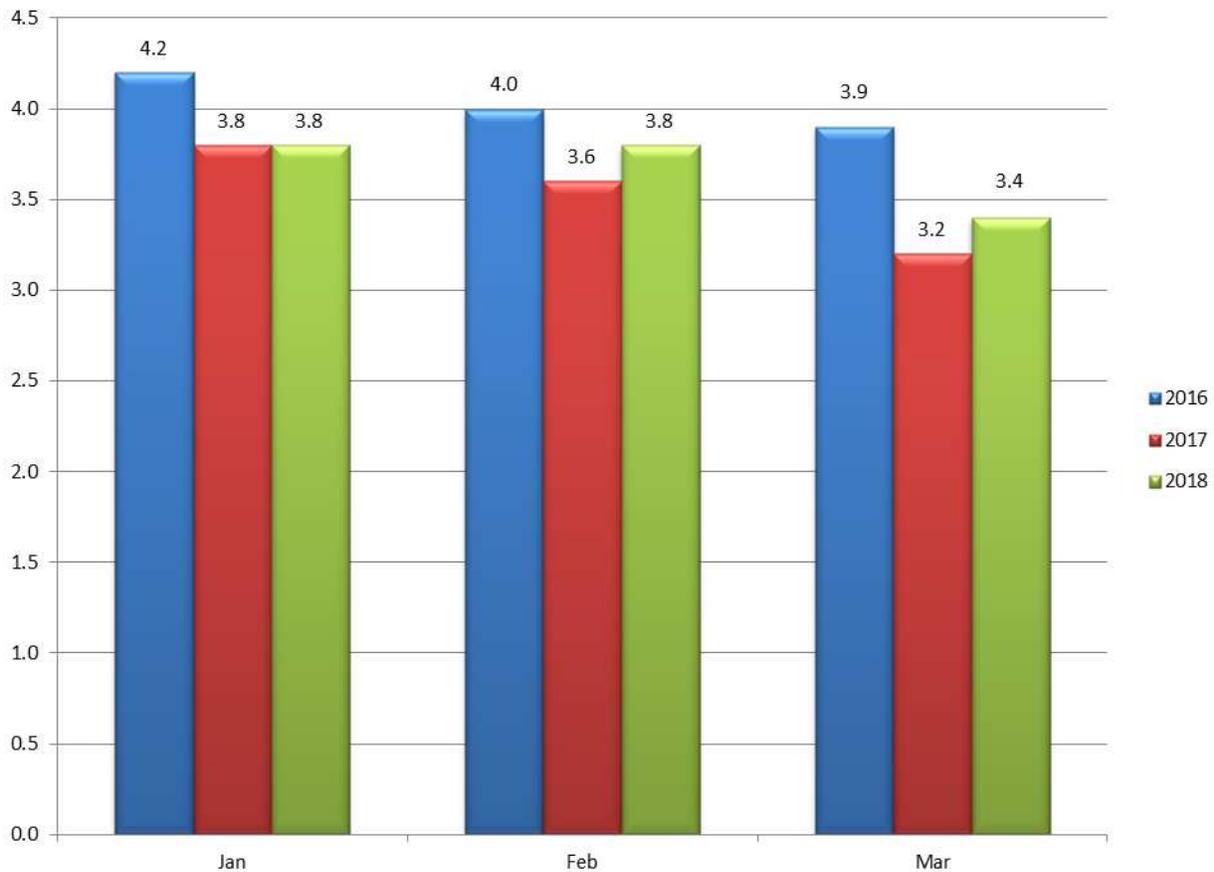

Current Rate

According to the State of California Employment Development Department, the unemployment rate among Cerritos residents in March 2018 was approximately 3.4%, which was comparable to the previous year during the same month. In March 2017, the unemployment rate was at 3.2%, which was comparable to March 2018. Additionally, the unemployment rates for January 2018 and February 2018 were comparable to the previous year with no significant increase. The slight increase in unemployment rates for February 2018 and March 2018 may be attributed to the end of seasonal or holiday jobs as these jobs typically end during the first quarter. In comparison to surrounding cities, Cerritos still maintained a relatively low unemployment rate and this may be attributed to the low overall vacancy rate for commercial real estate (currently at 4% for 2018-Q1).

Quarterly Unemployment Rate

May 2017	August 2017	December 2017	March 2018*
3.0%	4%	3.1%	3.4%

**Unemployment Rate – Quarterly Comparison
2016 to 2018**

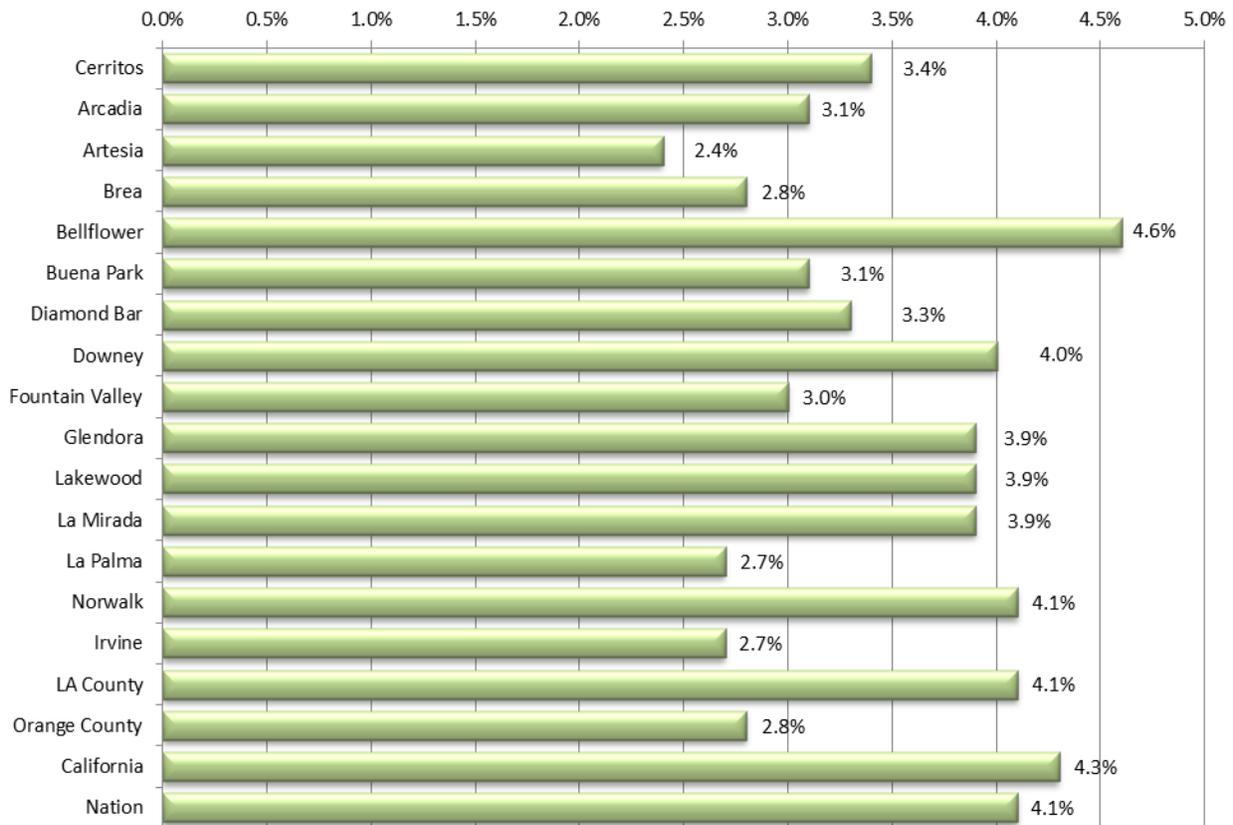

*Please note that March 2018 numbers are preliminary, based on the State of California Employment Development Department.

Unemployment

Surrounding Cities, Comparable Cities, and Counties

According to the California Employment Development Department, the unemployment rate among Cerritos residents in March 2018 was approximately 3.4%, which is lower than nearby cities, such as Bellflower (4.6%), Downey (4%), Lakewood (3.9%), and Norwalk (4.1%). Additionally, the Cerritos unemployment rate was lower than Los Angeles County (4.1%) and the State of California (4.3%). Cerritos' unemployment rate of 3.4% is also lower than the national average of 4.1%.

Employment

Annual Unemployment Rate

Currently, the average unemployment rate for each month in 2018-Q1 is 3.7% (January 2018 to March 2018), which is slightly higher than the average of 3.5% during 2017-Q1. However, even though the 2018-Q1 monthly average was higher by 0.2%, the unemployment rate is still relatively low in comparison to surrounding cities, the State of California, and the nation.

Employment

Labor Force

According to the United States Bureau of Labor and Statistics, labor force refers to the sum of all employed and unemployed individuals in the economy. In Cerritos, there were 25,619 persons in the local workforce during February 2018, an increase of 165 persons from February 2017 (25,388). Additionally, January 2018 experienced an increase of 144 individuals from January 2017. For the first two months in 2018-Q1, the labor force averaged 25,504 persons, which is an increase from 2017-Q1, which averaged 25,349 persons. The increase of more persons in the labor force may be attributed to more persons employed in Cerritos with new developments completed and the low overall vacancy rate of 4%. Please note that March 2018 labor force data was not available at the time of the preparation of this report.

Employment

Employment in Cerritos

In February 2018, there were 24,642 jobs within the City that employ both Cerritos residents and individuals that reside outside of Cerritos. Based on a one year trend analysis, employment increased from February 2017 (24,365 persons) to February 2018 (24,642 persons) by a total of 277 persons or 1.1%. Based on a three year trend analysis, January 2018 also experienced an increase in employment from January 2017 (342 person increase) and from January 2016 (787 person increase). Additionally, employment from February 2016 to February 2018 increased by 727 persons, which amounts to a 3% increase over a three-year period. According to the employment data, the City is experiencing a continued increase in employment, which is a positive sign for the local economy. Please note that March 2018 employment data was not available at the time of the preparation of this report.

Unemployment

Unemployment in Cerritos

According to the United States Bureau of Labor and Statistics, the number of individuals unemployed is calculated with the following formula: $\text{unemployment} = \text{labor force} - \text{employment}$. Based on the data from February 2018, there are currently 977 individuals unemployed in Cerritos, which is a decrease of 112 persons February 2017 (1,089 unemployed) and a decrease of 188 persons from February 2016 (1,165 unemployed). This trend indicates a decrease in unemployed persons over a three-year period for the first quarter, which is a positive sign for the City. For the first two months of 2018-Q1, unemployment averaged 976 persons, which is a decrease from 2017-Q1, which averaged 1,131 persons.

From 2013 through 2016, the average annual number of persons unemployed in the City of Cerritos decreased. While a minor increase in unemployment was reported from 2016 to 2017 (94 persons), the total average of unemployed persons remains low at 1,044 persons, which is a positive indicator that the local economy is growing when compared to surrounding and comparable cities. Please note that March 2018 unemployment data was not available at the time of the preparation of this report.

Commercial Real Estate

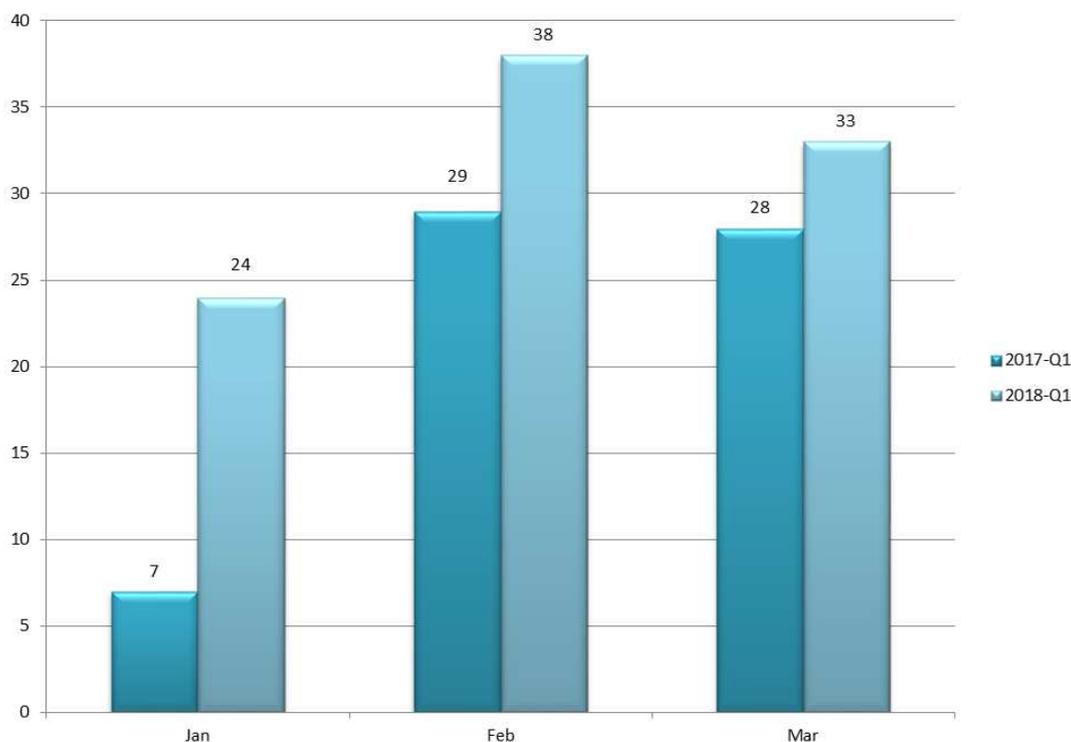

Commercial Real Estate

Certificate of Occupancy

The tracking of new buildings and the issuance of a Certificate of Occupancy (CO) is one method to determine the activity of commercial real estate in Cerritos. A CO is a required document issued by the City after the completion of construction and the final building department inspection for the purposes of authorizing occupancy. A high number of CO, new buildings, and tenant improvements are indications that the local economy is growing. For 2018-Q1, a total of 95 CO's were processed, which is an increase of 31 CO's from the same quarter during the previous year. February 2018 experienced a high of 38 CO's during a one month period.

On a year-by-year comparison, CO's have increased every year from 2013 to 2017. In 2014, 231 CO permits were issued (21 CO increase) and in 2015, a total of 254 CO were processed (23 CO increase) by the Building and Safety Division. In 2016, CO increased by two, and then in 2017, CO once again increased by 16 from 2016. This slight increase in CO's is a positive sign for the City's commercial sector.

Tenant Improvement

A Tenant Improvement (TI) refers to changes made to the interior of a commercial or industrial property by its owner to accommodate the needs of a tenant. A TI is an indicator of a new business opening in the City or an existing business expanding or renovating to meet their needs. A total of 32 TI's were processed in 2018-Q1, which is a decrease of 3 TI permits from 2017-Q1. February 2018 experienced a high of 16 TI permits, making February the highest month during 2018-Q1.

On a year-by-year comparison, TI's have also increased from 2015 to 2017. In 2015, the Building and Safety Division processed 76 permits. In 2016, the City processed 97 permits (an increase on 21 permits), and then TI's increased once again in 2017 with 115 permits processed by City staff (increase of 18 permits). This increase in TI's is a positive sign for the local economy.

Total Vacancy in Cerritos

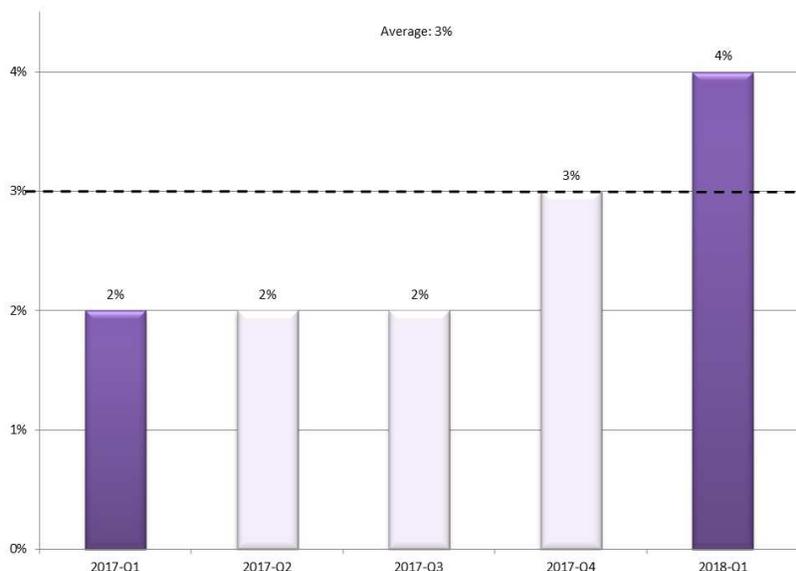

The City of Cerritos currently has a low vacancy rate when compared to the overall total available space for industrial, office, and retail uses. Currently, there is approximately 616,933 square feet of vacant industrial space, which equates to 4% of the total available citywide industrial space (15,088,117 square feet). Additionally, the City has approximately 117,162 square feet of vacant office space (8% of the total office space in Cerritos) and approximately 125,334 square feet of available retail space (3% of the total retail space in Cerritos). This equates to a total of 859,429 square feet of available space in the City, which is equal to 4% of the total amount of square footage within the City (21,196,480).

Total Available and Vacant Space in Cerritos

Use	Total Space (Sq. Ft.)	Total Vacant Space (Sq. Ft.)	Percent (%) of Vacancy in Cerritos
Industrial	15,088,117	616,933	4%
Office	1,422,575	117,162	8%
Retail	4,685,788	125,334	3%
Total	21,196,480	859,429	4%

In a quarter-by-quarter comparison, the City's total available and vacant space in Cerritos has remained relatively low. In 2017-Q1, the total vacancy rate was at 2% and remained at 2% through 2017-Q3. In 2017-Q4, the vacancy rate increased to 3% and then increased once again to 4% in 2018-Q1. A vacancy rate of 4% is a positive sign for the local economy and although the vacancy rate increased, a 4% vacancy rate remains low in comparison to surrounding cities. In comparison, according to real estate firm Newmark, Knight, and Frank, Los Angeles County's vacancy rate is at 7.9% (industrial and office) and Orange County's vacancy rate was at 7% for 2018-Q1, which is significantly higher than Cerritos' overall vacancy rate of 4%.

Office Vacancy Rates

In 2018-Q1, the Cerritos office market vacancy rate was at 8%, which is an increase from 2017-Q1, which was at 5%. Based on available data, Loop.net reported 21 office spaces currently available in 2018-Q1 (117,162 square feet), compared to 29 smaller office spaces available in 2017-Q1 (76,994 square feet), which may account for the 3% increase. Currently, according to Loop.net, there are currently three office buildings that are for sale, which amount to 60,392 square feet of available space. In addition, the office building located on northeast corner of Shoemaker Avenue and Artesia Boulevard is currently vacant as the property owner contemplates options for filing vacancies or making improvements to the existing office building. Additionally, the City's 8% office vacancy rate was lower than Los Angeles County's vacancy rate, which was at 14.7% and Orange County's vacancy rate, which was at 11.9%.

2018-Q1 Office Vacancy Rate – County Wide Comparison

Commercial Real Estate

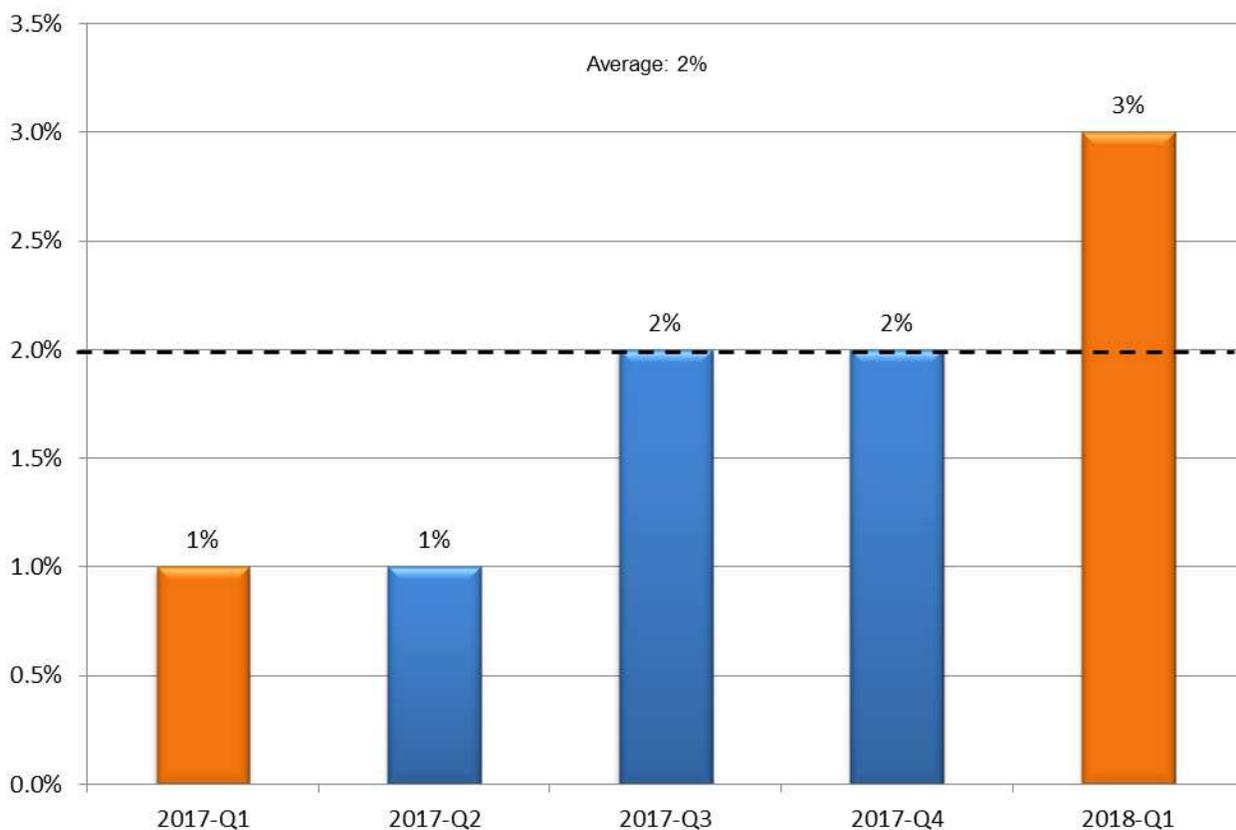

Retail Vacancy Rates

Cerritos currently has approximately 4,685,788 square feet of total retail space, which includes the Los Cerritos Center, Plaza 183, and the Cerritos Towne Center. Based on available data, Cerritos had a retail vacancy rate of 3% (125,334 square feet) during 2018-Q1, which is a slight 1% increase from 2017-Q4 (2%) and a 2% increase from one year ago. Based on a trend analysis, the retail vacancy rate has remained at an average of 2% over the past five quarters.

The retail vacancy rate has remained low due to the improvements at the Los Cerritos Center, the Cerritos Plaza Shopping Center, and at Plaza 183 located along 18rd Street, just north of the Los Cerritos Center. With the City's shopping centers almost at full vacancy, the Cerritos retail vacancy rate should remain between 1% and 3% for the next several quarters.

This low overall retail vacancy rate indicates that retail space is in great demand in Cerritos. In addition, Cerritos' strategic location along the 91 and 605 Freeways contribute toward a greater demand for retail space. The Cerritos Towne Center and Los Cerritos Center are located along these freeways providing consumers with easy access to these centers for their retail shopping needs.

Cerritos Retail Vacancy Rates

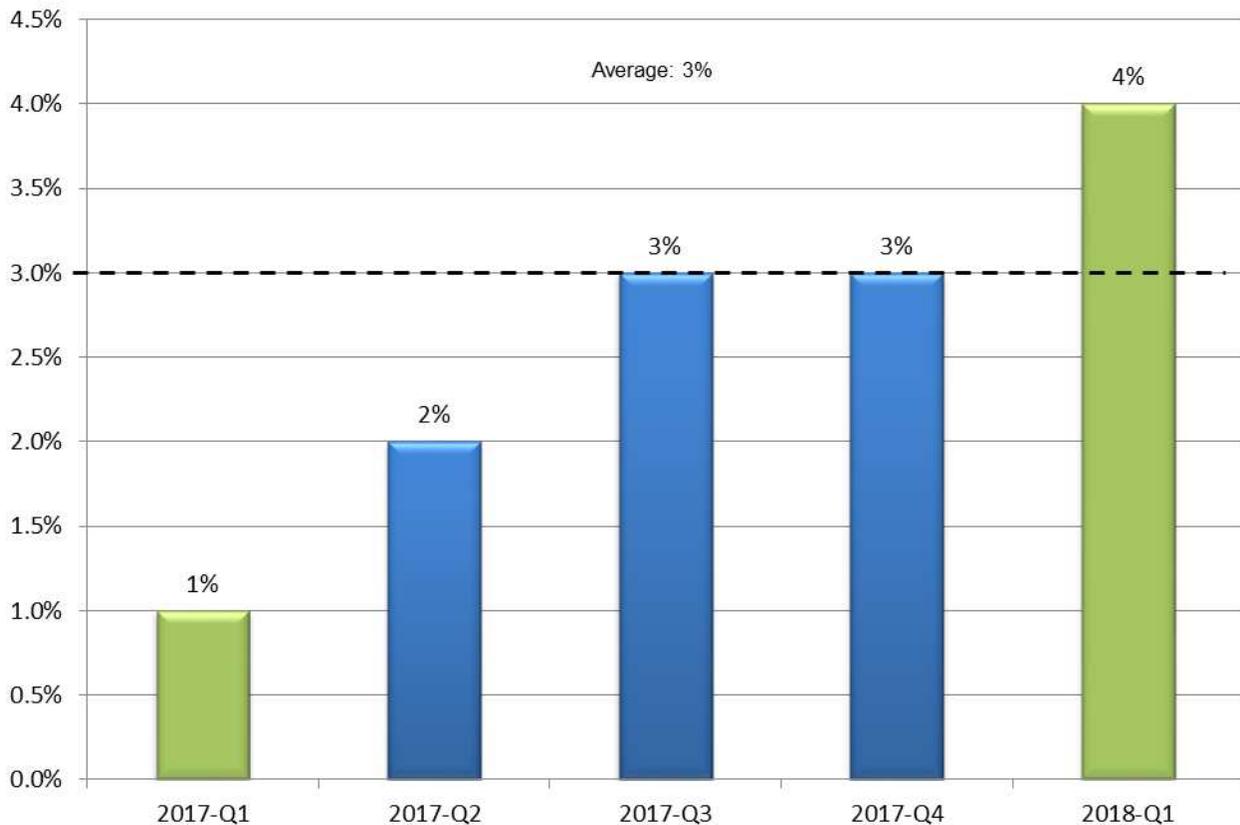

Commercial Real Estate

Industrial Vacancy Rates

Cerritos currently has approximately 15,088,117 square feet of total industrial space, which includes the Cerritos Industrial Park. Based on available data, Cerritos had an industrial vacancy rate of 4% for 2018-Q1, which is an increase from 2017-Q1 (1%). Based on a trend analysis, the industrial vacancy rate was at 1% during 2017-Q1, increased in 2017-Q2 to 2%, then increased in 2017-Q3 to 3%, and remained the same in 2017-Q4. Loop.net is reporting that in 2018-Q1, 18 buildings (616,933 square feet) were listed for lease or sale, and in 2017-Q1, 13 buildings (199,450 square feet) were listed for lease or sale, potentially leading to the increase in the industrial vacancy rate.

Cerritos Industrial Vacancy Rates

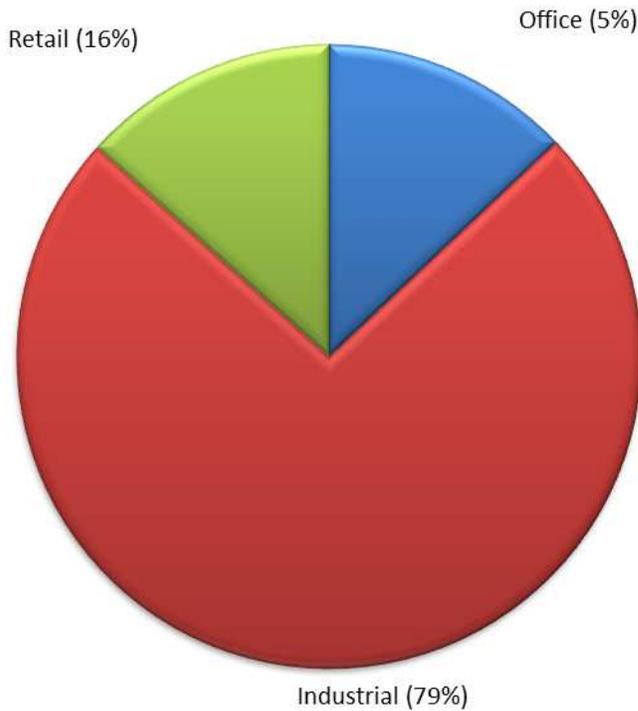

(Note: Industrial vacant space in Cerritos includes a greater proportion of warehousing and distribution businesses, which require large facilities. Therefore, a single vacancy may contribute a large amount of square footage to the overall vacancy rate. Industrial vacancy rates are calculated using available data from Loop.net for properties that are available for lease. Further, there is a possibility of additional vacant industrial properties; however, these properties may not be available for lease or reported on Loop.net at the time of the preparation of this report.)

Commercial Real Estate

Vacancy Breakdown by Use

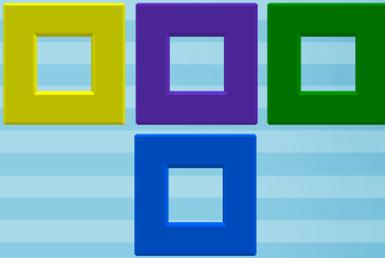

In Cerritos during 2018-Q1, there is approximately 864,365 square feet of total vacant space, which amounts to 4% of the total available space in the City. Of the total available space, 79% (616,933 square feet) is available for industrial use, 16% (125,334 square feet) is available for retail use, and 5% (122,098 square feet) is available for office use.
